Mr. [REDACTED]

File Group IR/08, Machine listings

The deposit of Industrial Installation listings arranged by Firm Number, 'D' order, is being discontinued as of this date. It is felt that these listings are not needed since a 'D CR' type listing (on deposit) arranged in Firm Number sequence including the document number references for each firm can serve the same purpose. Therefore, as revised 'D CR' listings are deposited both the old 'D' and 'D CR' listings should be destroyed.

In view of this present policy a 'D' listing for USSR Area XI which is not on file will not be needed.
